Collect your points ...

place an order of current Stampin' Up!® products with me and earn a point for every \$80 worth of product ordered. Separate orders may not be combined to reach a point. For example, an order of \$79 will not qualify for a point, but an order of \$80 will qualify for one point. An order of \$159 will qualify for one point, but an order of \$160 will qualify for two points.

You are responsible for recording your orders and associated earned points. When you reach 10 points, you can mail or email me your completed form, along with your choice of product to the value of \$50. I will order your product and have it mailed directly to you from Stampin' Up!® Should your selected product go over \$50 in value, you will need to make a payment to my account for the value over \$50. Once I receive your points redemption form, I will send you bank account details if necessary.
 ** Note: Hostess sets are excluded from free product choices.

Stampin' Up ! Order #	Date of Order	Order Amount *	Points Earned
Total Rewards Points earned			

Free product – total value \$50
